Welcome

Thamer International Schools

MY PRIMARY GOAL IS TO BE AN EXEMPLARY AND LEADING NATION IN ALL ASPECTS, AND I WILL WORK WITH YOU IN ACHIEVING THIS ENDEAVOUR.

King Salman Bin Abdulaziz Al-Saud

Dear Parents and Students,

Thamer International Schools bids farewell to a school year filled with hard work, achievements, excellence, and countless enriching experiences, we are excitedly preparing to welcome our dear students back once again to their second home and classrooms—where they will be energized and inspired to continue their learning journey. With love and pride for both our returning and new students, we remain fully committed to our Motto: "Students First." This guiding principle continues to be the foundation of everything we do.

As always, we strive to be a hive of activity, driven by our dedicated and talented staff, who arepassionate about offering the very best for our students. We are truly fortunate to have a supportive community that values education and collaborates to ensure the success of our learners.

While we continue to embrace advancements in education and technology, we are thrilled to introduce a range of new and innovative projects this academic year carefully designed to enrich our learning environment and create new opportunities for creativity, collaboration, and personal growth.

New Initiatives for This Year:

•**Podcast Program:** A unique opportunity for students to explore the world of media, storytelling, and effective communication.

•**Game Design Lab:** In response to the growing interest in gaming and its educational potential, we proudly introduce a specialized lab for game development.

•**Arabic Language Platforms:** As part of our commitment to inclusivity and cultural awareness, we are enhancing Arabic language skills through modern learning platforms.

We are also pleased to continue many of the exciting programs launched last year, including:

•**Leadership Program:** Designed to develop students' leadership skills through workshops, mentorship, and hands-on experiences—preparing them to take on leadership roles within and beyond the schools.

•**Robotics Classes:** Offering students the chance to explore robotics while strengthening their problem-solving and programming skills.

•**Virtual Reality Lessons:** Allowing immersive educational experiences across various subjects using cutting-edge VR technology.

•**Cooking Classes:** Teaching essential culinary and nutrition skills while encouraging a love for healthy eating and the culinary arts.

•**Academic and Non-Academic Competitions:** Providing students with opportunities to showcase their talents and abilities in a wide range of subjects and extracurricular activities, fostering healthy competition and personal growth.

Thamer International Schools
Administration

Thamer International Schools
A Story of Success

The schools were established in 1999 - 2000 AD under the management of the Chairman of the Board of Directors, His Royal Highness Prince Faisal Bin Thamer Bin Abdulaziz, may Allah protect him. Thamer International Schools was named after his father, His Royal Highness Prince Thamer Bin Abdulaziz, may Allah have mercy on him, in commemoration of his memory and his belief in the importance of science and education. Prince Thamer Bin Abdulaziz, may Allah have mercy on him, was born in Riyadh in 1357 H. He is the twenty-seventh son of King Abdulaziz's male children, and his mother is Princess Nouf Bint Nawaf Al-Nouri Al-Shaalan.

Prince Thamer Bin Abdulaziz, may Allah have mercy on him, grew up in the Palace of Governance in Riyadh, where he was raised, like his younger brothers and cousins, to study the Holy Qur'an and some Islamic sciences in a manner similar to books. King Abdulaziz, may Allah have mercy on him, was keen on educating his children, especially in some technologically advanced countries, so Prince Thamer was sent to study in The United States of America, but Allah Almighty decreed it before, and he passed away in San Francisco in 1378 H. at the age of 22 years. His death had a great resonance in the Arab world, the world and among the Saudi people in particular. Prince Thamer did not hold any political or governmental position due to his young age and death. A number of those close to His Royal Highness Prince Thamer Bin Abdulaziz, may Allah have mercy on him, mentioned that he was generous, charitable, and keen to help the poor and needy, and he paid attention to those working with him. He also memorized the Holy Qur'an and followed the commandments of his father, King Abdulaziz, may Allah have mercy on him in all matters, who was keen on obedience, worship, and calling to Islam with wisdom and good preaching. In conclusion, we ask Allah Almighty to have a wide mercy on His Royal Highness Prince Thamer Bin Abdulaziz and to cover him with His vast mercy and dwell him in His spacious paradise. We pray to Allah Almighty that Thamer International Schools remain proud and illuminated by knowledge and learners.

Prince Thamer Bin Abdulaziz, may God have mercy on him, was succeeded by one son, His Royal Highness Prince Faisal Bin Thamer Bin Abdulaziz, may Allah protect him, founder of Thamer International Schools and Chairman of its Board of Directors. Prince Faisal bin Thamer bin Abdulaziz, may God protect him, obtained primary and middle school from Al-Thaghr Model Schools and secondary school from Al-Falah Schools in Jeddah. Then he obtained a bachelor's degree from the College of Economics and Administration at King Abdulaziz University in Jeddah in 1398 AH, corresponding to 1978 AD, then he obtained a master's degree from UCLA University in California in 1409 AH. Corresponding to 1989 AD.

His Royal Highness Prince Faisal bin Thamer bin Abdulaziz Al Saud, has a bachelor's degree from king Abdulaziz University in Jeddah 1398H. Then he took the master's degree from UCLA university 1989G. in Los Angeles.

T. I. S. is a private, independent, international, English-medium school serving both the local and expatriate communities in Jeddah, Saudi Arabia. It is co-educational from Nursery till Grade 4 and segregated from Grade 5 till Grade 12 (Graduation Year). It has both the American and the British License.

It is operating legally under the supervision of the Ministry of Education.

Top Achievers

With the aid of the unique academic experience and upholding the Motto of T. I. S. (Students first), our students become self-motivated learners, which is clearly reflected by results from the Cambridge IGCSE / GCE standardized exams every year.

Thamer International Schools have been granted the title "School of Distinction" and have achieved Cognia Accreditation with Distinction for the Year 2021G.

Each academic year

T. I. S. students attain several ranks worldwide, across Saudi Arabia and Jeddah. Our students who appeared for the CAIE exams have achieved several exceptional awards of distinction as top in world, top in Saudi Arabia and Western Province in CAIE exams for the May /June 2024G. session.

Name	Rank	Subject
Amr Mohamed Lotfy Morsi Ashour	First place in Western Province	Biology (IGCSE)
Mahmoud Motaz Mahmoud Mohamed Meghawry	First place in Saudi Arabia	Best across three, Cambridge International AS Level
Mahmoud Motaz Mahmoud Mohamed Meghawry	Top in World	Mathematics (AS Level)
Omar Abdelkader Sobhi Bader	First place in Western Province	Chemistry (A Level)
Layan Ammar Odah	Third place in Western Province	Best across four, Cambridge International AS Level
Noor Ahmed Mohamed Hassan Emara	Second place in Western Province	Best across three, Cambridge International (AS Level)

The Guide of Excellence 2014 edition
Celebrating 50 years of CUSU

A global leader

SAUDI ARABIA'S THAMER INTERNATIONAL SCHOOL OFFERS SUPERB ACADEMIC OPPORTUNITIES TO ITS STUDENTS, WITH MANY ATTAINING TOP-IN-THE-WORLD STATUS IN THEIR EXAMINATIONS

"Over the past five years, many of our students have been ranked Top in the World in Cambridge International Examinations in maths, physics, chemistry and a host of other subjects," says Rana Abdelbaqi, Academic Director at Thamer International School (TIS) in Jeddah, Saudi Arabia. It's an impressive record that the private, English day school is rightly proud of. It also underlines the fact that TIS, which serves the city's local and expatriate communities, is one of the country's finest educational establishments.

Attention to detail

As a Cambridge International Centre, TIS prepares all of its 3,500 students – who range in age from three to 18 – to sit the IGCSE and Cambridge International Examinations AS and A levels. TIS also uses a diagnostic testing service called the Cambridge Checkpoint to provide comprehensive feedback on its students' strengths and weaknesses in the key subjects of English, maths and science. It's a meticulous approach that's typical of the school's dedicated attitude to each pupil. And with around 400 teachers and 100 teaching assistants, it is indicative of the attention to detail that every child receives throughout their time at the school.

TIS's primary school is co-educational with a curriculum that includes art, French, Islamic studies, IT, language arts, maths, physical education, science and social studies. It also provides Arabic lessons to non-speakers. The upper school, which ranges from Grade 4 to Grade 12, is segregated by gender and teaches English, maths, biology, physics, chemistry, Arabic, French and IT. In addition, more advanced courses, such as business, accounting, economics and psychology, are offered to senior students.

The internationally accredited education that the school provides is echoed by the global make-up of its student body. "We have pupils from 36 countries," says Rana, "including Albania, Australia, Britain, South Korea, Japan, Canada, India and Pakistan." Along with its cosmopolitan composition, TIS also boasts an array of cutting-edge facilities after having moved into new, modern premises in 2008. "All of the classes, from kindergarten upwards, now have interactive whiteboards," she continues. "We have six science labs, seven computer labs and three libraries, including an e-library that is stocked with a wide range of English, Arabic and Islamic books. We also have a swimming pool, four gyms and a huge auditorium with the latest technology, where we stage celebrations, seminars and workshops."

"TIS uses a diagnostic testing service to provide feedback on students' strengths and weaknesses in key subjects"

Future leaders

As well as focusing on the quality of their students' academic education, the teaching staff at TIS also encourage pupils to be well-rounded individuals with excellent communication skills. "We prepare learners to be leaders of the future," says Rana.

The school hosts multiple extracurricular activities to help nurture students' personal and social development. These include International Day, which celebrates people and cultures from around the world, and Earth Day, which is dedicated to promoting awareness of environmental issues through student-led presentations and tree-planting exercises. The school also plays host to a lively mix of spelling bees, maths competitions, science fairs and Arabic competitions, as well as an arts festival.

Furthermore, to ensure that students are healthy and happy, TIS social workers provide them with academic, social and emotional guidance and counselling services. The school also has a full-time doctor and nurse on hand.

With a broad academic curriculum, impressive new facilities and an emphasis on the social, physical, emotional and intellectual development of each student, TIS is ideally positioned to guide its pupils to the Top in the World.

BUILDING A SENSE OF BELONGING BY PUTTING STUDENTS FIRST

THAMER INTERNATIONAL SCHOOL
JEDDAH, SAUDI ARABIA | WWW.THAMERINTERNATIONALSCHOOL.COM

"WE HAVE STANDARDS OF DISCIPLINE AND WE EXPECT STUDENTS TO WORK HARD, BUT WE ARE ALSO HERE TO HELP"

Many parents agree that, when it comes to education, children should always come first. At Thamer International School in Jeddah, Saudi Arabia, this concept is central. Consequently, its students—aged four to 18—are both happy and confident, while also achieving impressive academic results.

"We do not treat students as numbers," says Academic Director Mrs Rana Abd El Baqi. "Our teachers care for each as an individual. Success comes from nurturing every child psychologically, emotionally and academically. You need to consider all of these aspects for students to thrive. It is why the school's motto is 'Students First'."

"Some students have problems outside the school environment," says Rana. "We try to fix those. We do not just look at their academic results and say 'improve'; we talk to the student and get personally involved. We have great standards of discipline and expect our students to work hard, providing them with all the help and support they need. If a child is going through turbulent times at home, our team will spare no effort to provide a safe and supportive environment. We want them to feel secure and to enjoy coming to school."

PUTTING STUDENTS FIRST

"This is true for students of all abilities," says Rana, "and the 'Students First' philosophy helps to bring out the best in each child." In fact, the only selection criterion for the school is that students have an excellent level of English. "Around 90 per cent of our students speak Arabic as a first language, but our medium of instruction is English," says Rana. "Because of this, we accept students who have a strong grasp of English. Once here, we follow their progress closely, guiding those students who need additional support."

Teachers are enthusiastic, willingly giving up their weekends to provide extra classes where needed. "We do not differentiate on the basis of students' achievements, and consider each as more than just an exam statistic," says Rana. "We show our students the rules of the game. Then they know how to play, and they can go out and score."

Community counts, too. While students are cared for as individuals, there is a strong sense of belonging at Thamer. Students of all ages annually mark the awareness-raising Earth Day, for example, extending their knowledge of environmental issues. For International Day, they learn about other cultures. "At a school with students of around 30 nationalities," says Rana, "it is important to celebrate these and to learn from each other."

COMMUNITY CARE

Yet students are also expected to support people outside the school. "This year, we have added a requirement for all of our senior students to complete 30 to 60 hours of community service before they can graduate," says Rana. "They go to a nursing home or hospital, help with a social development project, or even work within our school, helping younger children with their reading, for example. Nowadays, universities look for community service like this and see it as part of a rounded education. It helps our students to further their academic career." Rana believes it will also help them in the workplace. "All our students are prepared for, and display confidence in, the outside world. We teach them how to apply their academic knowledge in real situations."

This expansive education, supported by Thamer International's "Student First" ethos, reaps impressive academic rewards—an outcome that is popular with parents, teachers and students alike.

A LEADER IN LEARNING

Thamer International Schools • Saudi Arabia

Based in Saudi Arabia's second-largest city, Jeddah, Thamer International Schools (TIS) is a truly multicultural learning environment, with some 45 nationalities represented from across the Kingdom of Saudi Arabia, the Middle East, Canada, Pakistan and India. Its exceptional exam results at Cambridge GCSE, A level and the American Diploma Program SATs (Scholastic Assessment Tests) places it in the highest tier of private independent schools in Saudi Arabia. "Our motto is Students First," says TIS Deputy Chairman His Royal Highness Prince Thamer Bin Faisal Bin Thamer Bin Abdulaziz. "Our vision is a unique academic experience, but it is also about being a leader as well as a learner."

By any measure of success, exam results at TIS are outstanding. Eighty per cent of its students achieve A* or A grades at A level and those in the American SAT stream achieve exceptional marks giving them entry to respected American universities. This, says HRH Prince Thamer Bin Faisal Bin Thamer Bin Abdulaziz, is due to years of preparation, beginning at the lower primary stage. "We prepare our students very early, but without pressure," she says. "We plan the curriculum, we teach, we revise and we provide rigorous exam practice. We have some of the highest exam results in Saudi Arabia because of our early preparation."

TIS takes pupils from lower primary at the age of three through to senior school graduation at 18. Although selective, the entrance exam at TIS is not so difficult in order to include children who would potentially flourish in the school's nurturing environment. "The exam and the school tour are really a chance for us to get to know the students and for them to meet us. It's a time to address any concerns or anxieties, especially for pupils who might be joining us from overseas."

Classes cover the spectrum of early years learning until Grade 9, when pupils have the option to follow the UK IGCSE programme or the American Diploma Program SATs. Each student's progress and potential is keenly monitored to ensure that they are guided towards the subjects they are best suited to. "Among other assessments, we use Measures of Academic Progress (MAP) of Northwest Evaluation Association (NWEA), which is an online progress exam," explains HRH Prince Thamer Bin Faisal Bin Thamer Bin Abdulaziz. "Pupils take this twice a year. It stretches them, automatically taking them on to more difficult questions and gives them projected goals."

STRETCHING MINDS

Students from TIS progress to further education across the Middle East, the UK, Canada and the USA. To help select the right university for them, TIS arranges visits from about 30 university representatives who help guide students and their parents through the process. "We also invite a number of American universities," says HRH Prince Thamer Bin Faisal Bin Thamer Bin Abdulaziz, "who hold orientation sessions with the students. We then help the students fill in the application forms at school."

Integral to the success of the pupils is the ongoing and intensive training given to the teachers at TIS. They begin each academic year three weeks early for training and professional development, mastering the learning processes that will allow them to teach different year groups. They also stay on for nearly a full month at the end of the year to continue training, often working through programmes devised by Cambridge University and the British Council.

Excellence in Physical Education

Our professional P.E. programs at T. I. S. are especially customized for the students in order to enlighten them not only educationally, but also to nourish them physically knowing that a sound mind needs a sound body

His Royal Highness Prince
Thamer Bin Abdulaziz
God bless his soul
Competition for Memorizing The Holy Quran

We are proud of our annual Holy Quran memorization competition as it helps our students memorize portions of the Quran, or the entirety of it, through a curriculum that is customized to their individual ability, and always seeks to connect our children and youth to their religion, out of its belief in the importance of memorizing the holy Quran and embodying its directions.

Our schools offer prizes of honor and encouragement, may Allah reward Prince Thamer and may Allah have mercy on him:

First Prize: Fifty thousand Saudi Riyals – 50,000 SAR

Second Prize: Thirty thousand Saudi Riyals – 30,000 SAR

Third Prize: Twenty thousand Saudi Riyals – 20,000 SAR

Registration Period for the academic year 2025 – 2026G.

Registration for all students starts on Sunday, 17 Shaaban 1446H. corresponding to February 16, 2025G. onwards. All parents must update the following student information when reserving a seat:

Documents required for the registration process of current students:

1- Print out of the parents' national address as well as SIMAH report, with a recent date.
2- Photocopy of the father's, mother's & the child's valid ID Card or valid Iqama.
3- Photocopy of the student's information from Absher.
4- Photocopy of the child's valid Passport.
5- Updating the father's and the mother's email address.

- **The schools' administration reserves the right not to register any current students beyond the date of Thursday, 20 Ramadan 1446H. corresponding to March 20, 2025G. in case places are not available. All parents are kindly requested to abide by the announced dates.**

REGISTRATION FEES:

Registration fees for current students (Grades KG to 12)	**S.R. 5,500 to be deducted from the annual fees (not entitled to any of the schools' discount policies).**
Registration fees and opening a file for new KG students	**S.R. 5,500 to be deducted from the annual fees (not entitled to any of the schools' discount policies).**
Registration fees for new students (Grades 1 to 12)	**S.R. 5,500 to be deducted from the annual fees (not entitled to any of the schools' discount policies).** **S.R. 2,000 for opening a file (non-deductible from the schools' fees & not entitled to any of the schools' discount policies).**

- **All payments are nonrefundable for any reason.**
- **We need to emphasize the importance of registration as the administration needs time to reserve seats, prepare classes and provide school materials such as books, uniforms, and stationery, etc.**
- **The schools will accept external students to be registered for the IGCSE and A Levels (except for Thamer International Schools former students).**

Important Dates

Entrance exam dates for all students

Note: The value added tax which was imposed by the General Authority for Zakat and Income, will be charged on all the above mentioned fees.

Terms of Payment

Payment policy: Cash payment is not allowed

Please note that the fees of each academic year is payable in three installments. Students are not permitted to join classes at the beginning of a term unless arrangements for full payment of fee have been completed within the deadlines stated below:

First installment: Placement fees.

1- 5,500 S.R (To be deducted from the annual fee but not entitled to any of the schools' discount policy).

2- 2,000 S.R for opening a file for new students from Grade 1 to Grade 12.

3- Standardized tests fees for Grades (6, 8, 9 SAT & 10 SAT) according to the tuition fees schedule.

4- Schools' uniform fees for the level.

It's crucial to sign the schools' agreement contract and update the parents' data.
Otherwise, the administration will, unfortunately, cancel the student's registration.

Second installment: Tuition fees for the first term to be fully paid:

The full fee for the first semester must be paid before the student's attendance at schools.
The last date is Sunday, 08 Rabi Al-Awwal 1447H. corresponding to 31 August, 2025G.

Third installment: Tuition fees for the second term to be fully paid:

The full fee for the second semester must be fully paid by maximum 12 Rajab 1447H. corresponding to 01 January, 2026G. or contact the schools to determine the payment plan (before the student's attendance).

- **All the fees mentioned above are nonrefundable.**
- **All the annual fees must be paid in any case (even if the parent decides to withdraw the student from the schools at any time during the academic year for any reason).**
- **IGCSE & GCE A Level students must pay the full year's fee by Wednesday, 11 Rajab 1447H. corresponding to December 31, 2025G. before registering for the CAIE exams.**
- **Students wishing to register for IGCSE & GCE winter session exams (October-November 2024), must pay the seat reservation fees for the academic year 2025-2026G before registering for the exam so the schools can register their students with the British Council.**

Note:

Graduation ceremony fees must be paid no later than Thursday, 29 Jumada Al-Awwal 1447 AH, corresponding to November 20, 2025G., for those wishing to participate in the graduation ceremonies.

Note:

If a student does not report to the school during the first 45 days of each term without informing the administration, the school has the right to cancel his/her registration without any refund.

•No refunds will be made to students who withdraw from the schools for any reason and the whole annual fee must be fully paid before withdrawing the students` files and report cards.

•Tuition fees will not be transferred from a student`s account to another for any reason, even among the family members.

•Purchased books are neither refundable nor exchangeable.

You can pay through:

1. Bank Transfer.

•For more information, please contact the Registration Department.

Tel: 012-6977033 Ext: 313 or 413 or 415.

E-mail: registrar@tis.edu.sa

Allah says: " O believers! Patiently endure, persevere, stand on guard, and be mindful of Allah, so you may be successful." Al Imran 200.

Our brave soldiers stationed on the southern border of our beloved country have answered the call of religion and duty and have personified heroism, sacrifice, and redemption so that the homeland remains noble, standing, and secure.

Because they are the protectors of the homeland and its strong shield, we aim to return some of the favor that obligates us and grants us security and safety after God Almighty.

As an expression of our loyalty and thanks to our doctors in the government sector and our brave soldiers, and in compliance with the words of our Holy Prophet, may God bless him and his family and grant him peace: "Whoever prepares an invader for the sake of Allah has conquered, and whoever succeeds an invader in his family as well has conquered", we at Thamer International Schools are pleased to contribute to honoring them through their children affiliated with our schools by supporting them and by giving them a special discount from the annual premium for this year.

We ask God Almighty for guidance, acceptance, reward, and success.

Note:

To get the discount, you must pay the full fees before Wednesday, 11 Rajab 1447 H. corresponding to December 31, 2025 G.
